DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

2. The information disclosure statement filed on 1/22/2004 has been considered.

Claim Rejections - 35 USC § 112

3. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 line 6, the term "one of the two output terminals" lacks antecedent basis.

There is no limitation previously recited in the claim that suggests that the optical switches have two terminals; line 6, the term "outputs remaining pulse train ..." is confusing. It is not clear whether the dividing of the transmission speed can be translated as "outputting a first portion of the pulse train optical signal." Please clarify.

Line 7, the term " the alternative" is unclear and lacks antecedent basis; in addition, same line, the term " the connection" lacks antecedent basis; line 13, the term "said plurality of receiving parts..." lacks antecedent basis;

In claim 2, line 3, the term " the last stage lacks antecedent basis;

In claim 3 line 6, the term "one of the two output terminals" lacks antecedent basis.

Line 7, the term " the alternative" is unclear and lacks antecedent basis; in addition, line 8, the term " the connection" lacks antecedent basis; line 12, the term " the optical power" lacks antecedent basis; lines 11, the terms "the alternative" and "the last stage" lack antecedent basis;

In claim 4, line 3, the term "the number of " lacks antecedent basis;

In claim 7, the term " the modulation scheme or ..." lacks antecedent basis.

Allowable Subject Matter

4. Claims 1-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
